

# COMPANY PROFILE

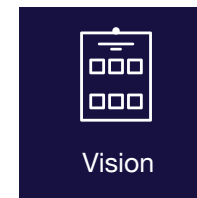

[www.iicstechnologies.com](http://www.iicstechnologies.com)

# Background

IICS Technologies is a software development company of Engineers, Designers and Developers that provide cutting edge engineering solutions. Our passion is in supporting Private and/or Government entities in their quest to work smarter and improve service delivery. We are visionary and reliable software partners that will focus on driving your agenda.

Our primary and singular objective therefore, is to engineer and integrate computer systems that address challenges faced by our clients. For example, we have and continue to support Uganda's public health sector with an integrated Hospital Management System to enhance service delivery since 2010.

IICS Technologies has built capacity in Research, Design, Development and Deployment of Large scale Software systems. Also, we support our clients with Change Management, Network set up, Systems Administration, and offer User Support services. Indeed, IICS Technologies is configured to provide its clients with an end to end solution.

Highly Innovative IT Solutions  
or Nothing at all.

To engineer Innovative IT Solutions  
that improve efficiency and  
effectiveness of Public Service  
Delivery while ensuring value for  
money for stakeholders.

The Agreement establishing the African Continental Free Trade Agreement (AfCFTA) entered into force on 30 May 2019 for the 24 countries that had deposited their instruments of ratification.

The AfCFTA will bring together all 55 member states of the African Union covering a market of more than 1.2 billion people, including a growing middle class, and a combined gross domestic product (GDP) of more than US\$3.4 trillion. In terms of numbers of participating countries, the AfCFTA will be the world's largest free trade area since the formation of the World Trade Organization.

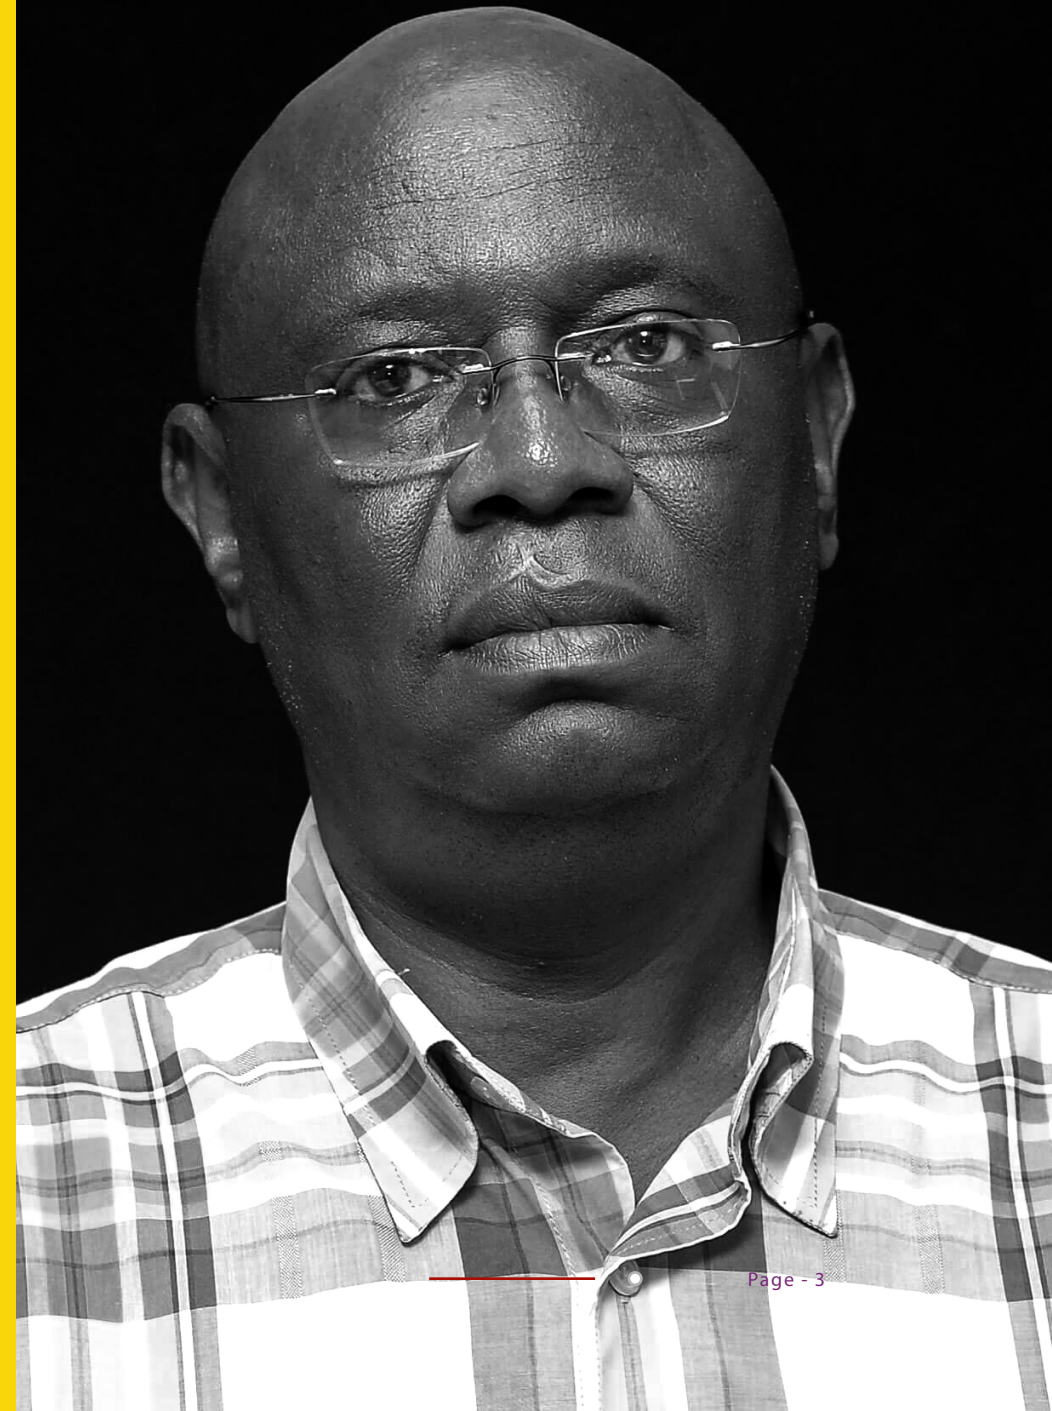

Estimates from the Economic Commission for Africa (UNECA) suggest that the AfCFTA has the potential both to boost intra-African trade by 52.3 percent by eliminating import duties, and to double this trade if non-tariff barriers are also reduced.

At IICS Technologies we consider the creation of AfCFTA as a very huge opportunity for us to contribute support to mother Africa. Our support, comes in the form of technological interventions that are local to Africa, but also interventions that address challenges that may be unique to Africa. Already we are making contribution in our motherland Uganda where young men and women fresh from universities are mobilized purposely to innovate and develop software applications that focus on making a difference in the life of the common man.

Indeed, we are very grateful to the visionary leaders of Africa who have made AfCFTA a reality. It is our hope that the services we offer currently plus those planned for the future will go a long way in stimulating further economic growth for our people in AfCFTA.

Silver S Kiyimba

**TEAM LEADER - IICS Technologies**

# Values

There are no secrets to success. It is the result of preparation, hard work, and learning from failure.

## Dedication

We are dedicated to offering our clients software solutions that are innovative and useful.

## Empathy

We are devoted to doing our level best to understand priorities of our clients. This will help us to focus on the needs and deliver solutions that address the needs of our clients.

## Inspiration

We are an organization that inspires our staff to achieve the extraordinary through continued knowledge acquisition, retention, empowerment and motivation.

## Quality

We pursue superior performance and quality in all that we do in order to build and preserve IICS organizational integrity.

## Partnerships

We recognize the value of strong internal and external partnerships as a vehicle that enables us to accomplish our goals.

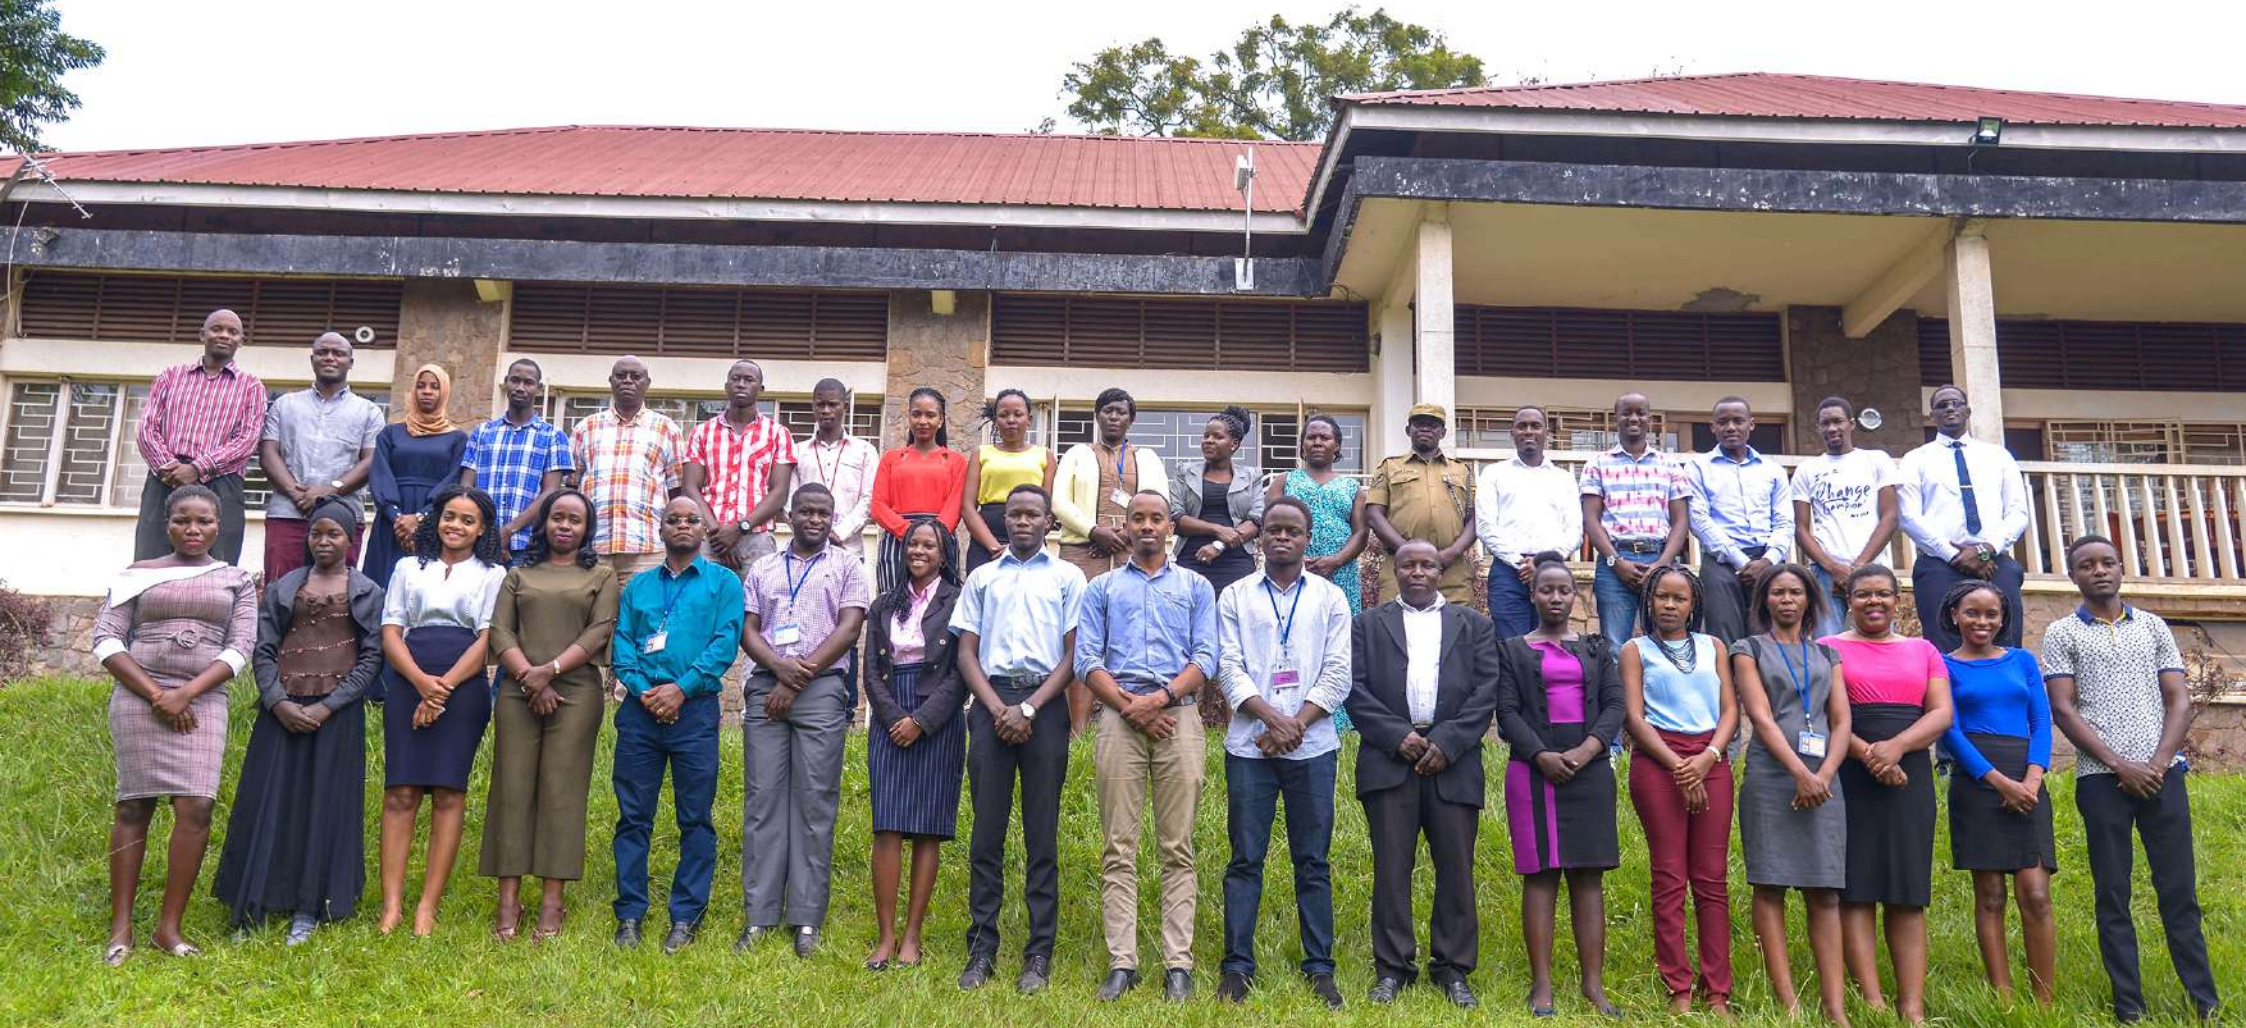

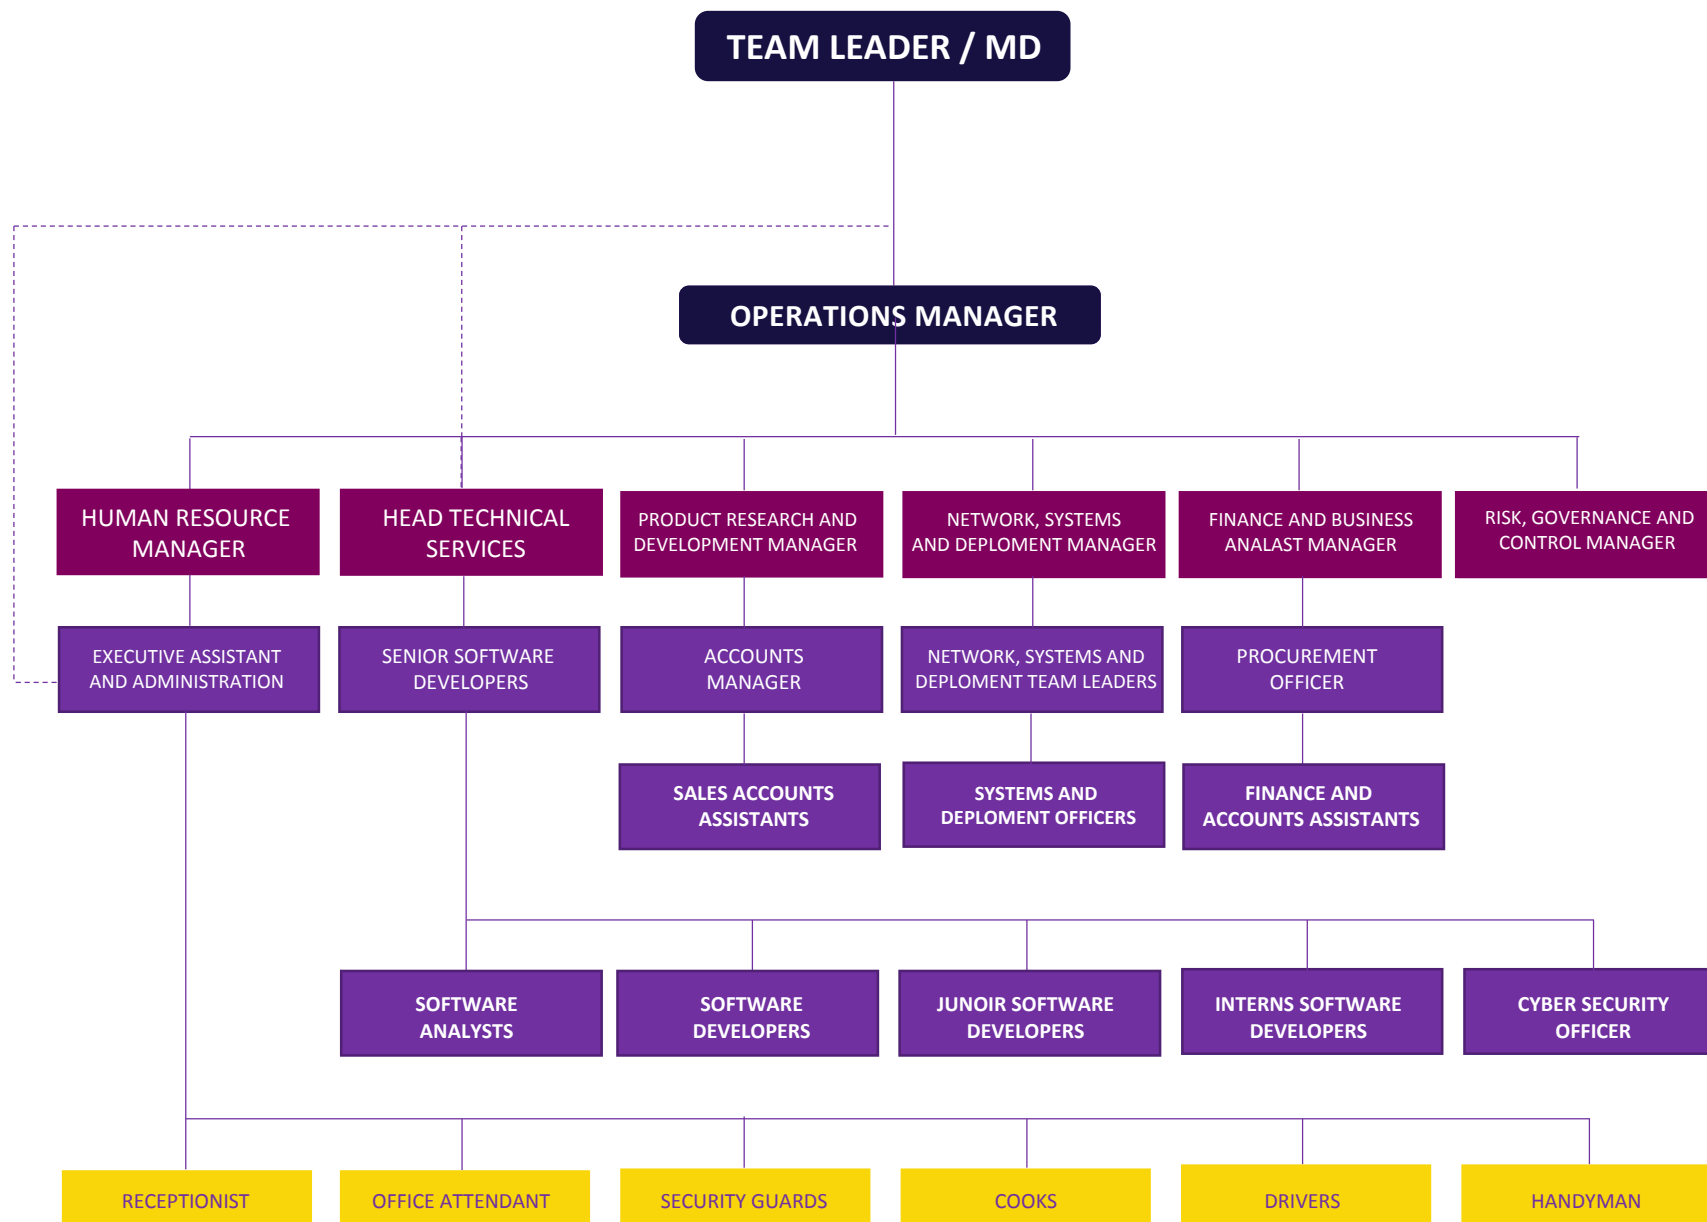

# Our Organogram

---

# The Team Leadership driving the agenda

The most important factor in delivering world class services for our clients is unequivocally the quality of our staff.

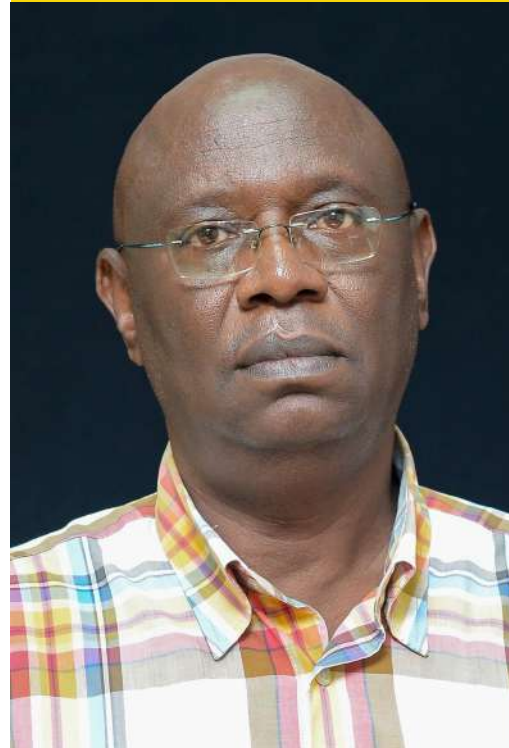

Passionate, dedicated and inspiring professionals who delight in finding innovative and useful IT solutions. This is what we specialise in and promise to deliver on.

We invite you to get to know our wonderful staff by putting a face to the name, reading their bios and getting in touch; they are always happy help.

By applying best practices from the public and private sectors worldwide, and harnessing innovative technology and financial thinking, IICS Technologies delivers realistic and reliable solutions that enable clients meet their infrastructure, social and economic challenges.

# Services

# Services overview

## Business Process Engineering/Re-engineering

We support our clients to re-engineer their business process with the goal of improving product output, quality, or reducing costs, etc. Business Process re-engineering involves the analysis of organization workflows, finding processes that are sub-par or inefficient, and figuring out ways to get rid of them or change them.

## IT Consulting

At IICS Technologies we use the expertise and deep tech background of the best minds to create a comprehensive IT strategy for a digital and technological transformation of your organization that goes in line with your business objectives. Our strategic IT consulting will help you automate and digitalize operations, optimize the software portfolio, and implement the latest technologies.

## Product Engineering

Poorly designed computer software systems stress out employees and impede productivity. We invite you to leverage our decade-long expertise in enterprise software development, API integration, modernizing legacy systems, and consolidating app portfolios.

## User Interface Design

If you want to build your product with a team that establishes a clear design process, meets deadlines, and delivers on time, IICS Technologies is your right partner. Our design team is a small design studio within a reasonably large software organization that will help you build an engaging product easily and quickly.

## Testimonials

IICS has won numerous industry accolades throughout our many years in business. But none of them is more important than the praise we've earned from our clients.

**IBBI**

" We are proud of the thoughtfulness, commitment and quality of work IICS Technologies has demonstrated through the software design, development and commissioning of our projects. Teamwork is critical to any project; the IICS Technologies and IBB International Limited teams worked well together to achieve a first-class management service. "

IBB INTERNATIONAL LIMITED

  
what our customers say

" We challenged IICS Technologies to complete the project in just over five months. This was an incredibly fast-track schedule, given the retrofits of this scale, as we were told by our own advisors, typically require at least eight to nine months. IICS Technologies' versatility and experience with complex software solutions enabled them to meet this aggressive schedule while achieving our high quality standards."

MBARARA DISTRICT LOCAL GOVERNMENT

**Interheart**

Your Business. Our Passion

*" IICS Technologies, Thank you so much for the transformation that you have brought to our organization. Your techniques in managing change have amazed everyone at Interheart Ltd. The process was painless and very productive. "  
Bravo IICS Team*
